

HOW TO NAVIGATE THE WRI.UTAH.GOV WEBSITE

UTAH'S
WATERSHED
RESTORATION
INITIATIVE

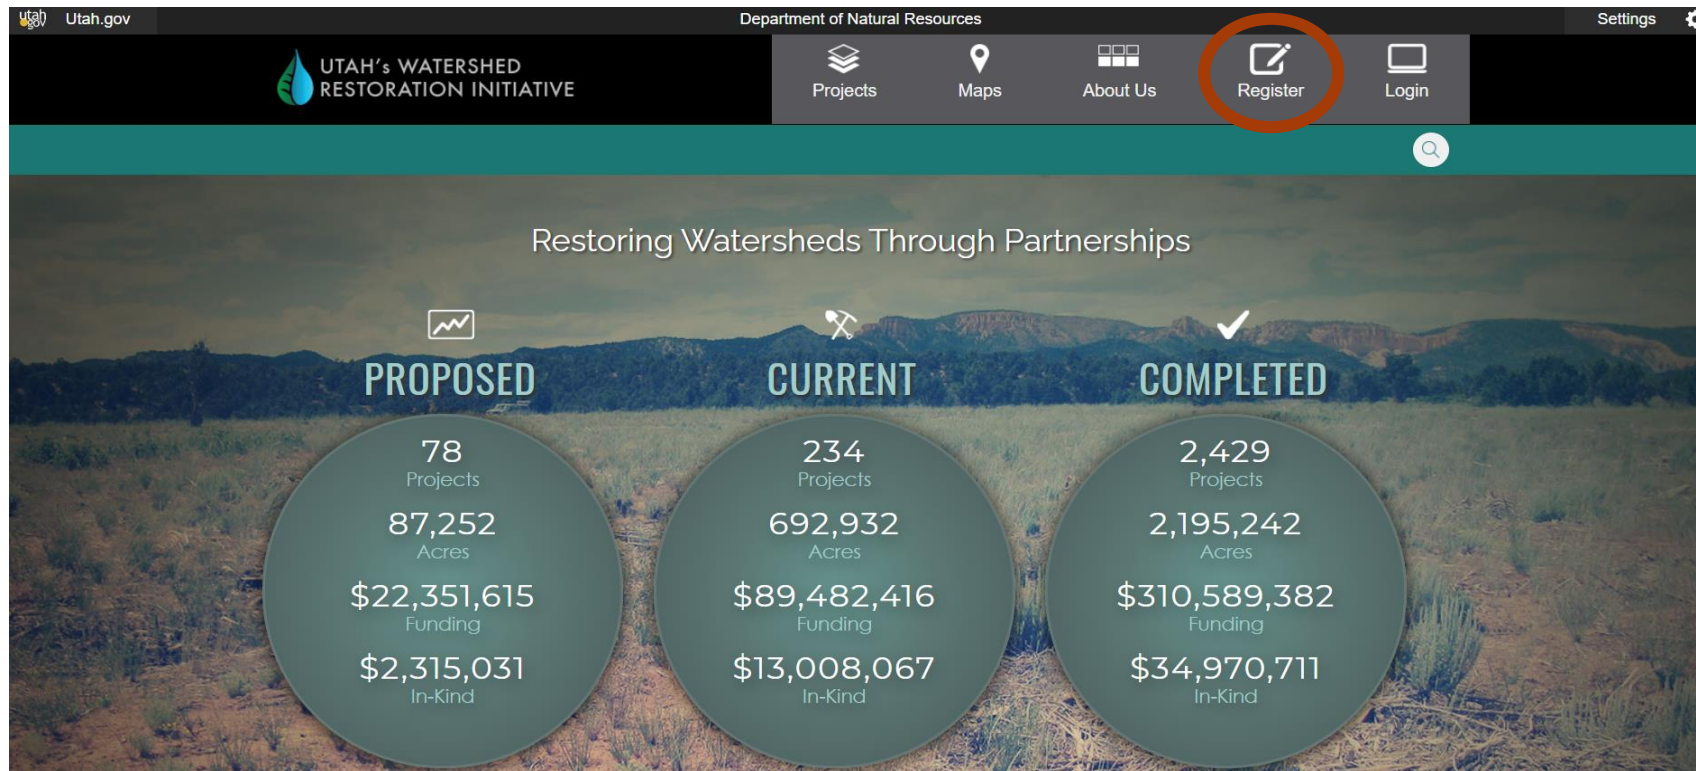

UTAH'S WATERSHED RESTORATION INITIATIVE

[HTTPS://WRI.UTAH.GOV](https://wri.utah.gov)

Main WRI Webpage

- The website can be viewed by anyone, even without a Login. Click the “Projects” button or the “Map” button on top the menu to begin viewing projects.
- The “Search” button (hourglass icon) can also be used to look up projects by name or WRI #.
- To make comments on projects a Login is required.
- To create a Login, click on the “Register” button on the top menu.

Project Information

- Once a project is selected, the first page is the Title page.

For more information about the WRI program, click the About Us tab, it will direct to watershed.utah.gov

The menu on the right provides additional information about the project (project details, budget, pictures, species, seed, etc.)

By clicking the Map This Project button, it will bring up the Map Page and automatically zooms to that specific project.

A PDF can be downloaded by clicking the Project Summary Report button.

Map Page

Changes the base map (i.e. aerial image, topo map, etc)

Zoom in or out or use the scroll wheel on a mouse to zoom in or out as well.

By clicking the download button, the project polygon can be downloaded as a geodatabase / shapefile for viewing in ArcMap.

Project Details button will go back to the Project Information

Reference Data can be turn on or off (landownership, precipitation, DWR Regions, etc)

Clicking the items under the Feature Category will highlight and display specific information about the treatment.

To view the Habitat Council % breakout for big game, upland game, waterfowl and sport fish; double click the Habitat Council Funding source and a pop up will appear.

ADVANCE SEARCH

The screenshot shows the homepage of the Utah's Watershed Restoration Initiative. The navigation bar includes links for Projects, Maps, and About Us. The Projects tab is circled in orange. Below the navigation bar, there is a 'Project Search' section. The 'Advanced Search' link is circled in orange. Below the search section, there is a table of project results. The table has columns for ID, Project Title, Region, and Agency. The first row shows project 5980, 'Fish Cleaning Station for Lake', in the Southern region, managed by the Utah Division of Wildlife Resources. The second row shows project 5979, 'Pilot Springs Pond Maint', in the Northern region, managed by the Bureau of Land Management. The third row shows project 5978, 'Fish Lake Angling P', in the Southern region, managed by the Utah Division of Wildlife Resources. The fourth row shows project 5977, 'Atchee Ridge', in the Northeastern region, managed by the Bureau of Land Management.
